# A ROOF OVER EVERY TABLE

At LAV, we have always believed that glassware becomes meaningful when it enters real life, when it meets a table, a ritual, a culture, or a moment. The small upper stroke of the "A" in our logo has been a symbol of that belief. It represents a roof, a shelter, and a gathering point. It is a simple gesture that brings people together under one shared space.

Amid our presence in more than 140 countries, this symbol naturally reflects who we are. It speaks to the homes we enter, the cultures we celebrate, and the daily rituals we support. It carries the warmth of hospitality, and the strength of craftsmanship. Most importantly, it shows how a global brand can still feel personal, as each home has its own roof and each table its own story.

As LAV continues to grow with innovation, sustainability, design and craftsmanship, this symbol will keep growing with us. It reflects our belief that wherever life happens, there is always room for connection, for harmony, and for the moments we share as a community. It clearly expresses that every product we create is designed to accompany diverse ways of living, cultures, and the meaningful rituals that bring people together.

A  
form  
that  
gathers  
our  
different  
ways of  
living into one  
shared sense of  
belonging.

## THE MEANING BEHIND

- ▲ A universal symbol of gathering:**  
*The cap of A becomes a roof that brings people together. We believe that every home, every table, and every culture finds a place under it.*
- ◀ A bridge between experience and innovation:**  
*The symbol carries our experience forward while opening space for new ideas, new designs, and new ways of living with glass.*
- ▶ A mark of continuous progress:**  
*An arrow that embodies our commitment to evolving craftsmanship and technology.*
- ▼ A form shaped to adapt:**  
*A flexible, versatile marker that shifts across cultures, shapes different rituals, and unites the many expressions of LAV.*

# FULL OF FORWARD VISION

Our journey with glass began in 1994, driven by a commitment to innovation, sustainability, and technology. From the very beginning, our goal has been to deliver excellence to every corner of the world.

Sustainability remains at the core of everything we do. By using environmentally responsible materials and adopting advanced water- and energy-saving processes, we now operate with the lowest water and electricity consumption rates in our industry worldwide. Our determination to protect the planet guides every step of production.

With a team of 1500+ professionals, we bring LAV products to tables in more than 140 countries, from the United States to China. As the fifth-largest glassware manufacturer globally, we produce 2 million items each day across two facilities covering 300,000 square meters. We are also one of only three companies worldwide developing its own glass production technologies, with pioneering R&D carried out in our Technopark.

LAV is more than a glassware manufacturer. We are a local producer creating value and memorable moments around the world. Guided by our principles act brave, do good, and think unlimited, we continue to push boundaries and pursue excellence.

## ► BUSINESS PARTNERSHIPS

LAV focuses on the specific needs of each business partner and delivers inventive, fit-for-purpose solutions. Through transparent, open communication, we ensure partners are included at every stage of the process. Our goal is to help each brand we work with strengthen its value and build meaningful, lasting connections with consumers.

## ► CULTURE

We believe the foundation of our success is a healthy work environment that encourages free thinking, collaboration, and innovation. At LAV, we prioritize knowledge, capability, and continuous growth. Through recruitment, in-house training, and recognition programs, we support our employees as they develop both professionally and personally.

## ► INNOVATION

Innovation and technology guide every division at LAV. Supported by our dynamic and forward-thinking teams, we have placed new ideas at the center of our business. Our R&D department leads many of our pioneering efforts, and with our Technopark, we remain one of only three companies worldwide creating its own production technologies in the glassware industry.

# FULL OF INTELLIGENT CRAFT

LAV, the world's fifth-largest glassware producer, stands as an internationally recognized brand built on advanced production technologies and a constant drive for innovation. Our two mega-factories manufacture 2 million units per day, supported by a unique "factory within a factory" model that allows us to design and build our own machinery. This approach ensures consistent quality, high productivity, and full control over every step of manufacturing.

We export to more than 140 countries, a reach that reflects the global trust placed in our products. Sustainability remains one of our defining strengths: LAV operates with significantly lower water and energy consumption than any other company in the glassware sector. With more than 1500 expert employees, we take pride in being a sustainable, innovative, high-quality Turkish brand admired all over the world.

# FULL OF GLOBAL ASSURANCE

To ensure that every client and business partner regardless of sector, scale, or location experiences full transparency and reliability, LAV maintains the principle that standardized, high-quality outcomes must always be achieved through an integrated and methodical approach. In line with this commitment, we have secured globally recognized certifications covering production, marketing, communication, licensing, and sustainability, all supported by our Total Quality Management framework.

These certifications allow us to meet diverse market regulations, enter new regions, and broaden opportunities for our customers while strengthening our own global presence. Beyond providing a competitive advantage, our dedication to excellence has improved operational efficiency and consistency, enabling us to deliver superior products and services at smart, sustainable cost levels.

# FULL OF DEPENDABLE FLOW

Thanks to the expertise of our global team and regional managers, LAV has had the privilege of reaching tens of thousands of tables around the world. Our commitment to serving customers and business partners continues to expand our footprint, now spanning more than 200,000 locations across 140 countries through a network of over 400 dedicated sales partners.

We recognize that precision and timing are essential in every step of the logistics chain. For this reason, we manage our packaging and shipping processes with meticulous care. Our durable, efficient, and sustainable packaging solutions support the operational needs of our partners while ensuring that every product arrives on time and in optimal condition, no matter how far it travels.

# FULL OF INSPIRATION

Today, the LAV experience extends far beyond the table. Our digital platforms bring the same sense of connection, creativity, and global inspiration into everyday life. Each piece of content is crafted to help people enjoy their rituals more fully: However they live, wherever they are!

Through our website and social channels, you can explore new product launches, discover cultural stories behind our collections, and find fresh ways to use LAV items in real homes. We share trends, hosting ideas, and practical solutions that make life feel a little more intuitive and a little more beautiful.

Our goal is simple: to turn digital spaces into meaningful extensions of the LAV world, where inspiration is accessible, storytelling is alive, and glassware becomes part of how communities connect.

new

### ► Calista - p45

Calista introduces a new level of lightness to the LAV collection. Crafted for a refined drinking experience, each piece balances clarity, durability, and an airy elegance that feels effortless in the hand. Available in a 510 cc long drink and a 400 cc soft drink, Calista is shaped for versatile, everyday use. The slim vertical lines at the base catch the light softly, adding texture without weight, while the stackable silhouette brings practical ease to modern kitchens.

### ◀ Helen - p79 & p91

The Helen series has always stood out for its clean lines, modern silhouette, and the calm sense of order it brings to everyday routines. This year, the family grows with three thoughtful additions designed to make the series even more versatile: a tea glass, a tea saucer, and a bowl that brings Helen's signature aesthetic into the world of small bites and sweet servings.

Each new piece carries Helen's signature ribbed texture, creating a familiar rhythm. The tea glass brings a refined clarity to traditional tea rituals, while the matching saucer mirrors the design language with soft, square contours. The bowl extends Helen's design language into new uses, offering a textural, light-catching surface ideal for snacks, desserts, or small servings that deserve a considered presentation.

### ► Tessa - p46

Tessa brings a new tactile dimension to LAV's world of tumblers. Designed as a set of three stackable sizes, it moves effortlessly from everyday drinks to layered desserts, small bites, and creative table presentations. Each piece offers a different height inviting endless combinations on the table.

What makes Tessa truly distinctive is its trio of patterns. Familiar geometric motifs are reinterpreted with modern clarity, so each glass feels connected yet unique. Together, they create a subtle harmony of textures that catch the light beautifully and add depth to any serving moment.

From a refreshing long drink to a breakfast parfait or a simple bowl of berries, Tessa adapts with ease. Its lightness, stackable practicality, and expressive pattern language make it a versatile companion.

## FULL OF DESIGN DIVERSITY

LAV draws inspiration from the way people live across the world, turning cultural rhythms into modern, functional design. From bold graphic forms to soft, textured lines, every piece is shaped to adapt. Glassware becomes a bridge between styles, fitting naturally into vibrant gatherings, calm routines, and everything in between. This global approach brings versatility to the forefront; design that feels at home anywhere, while staying true to LAV's contemporary spirit.

## FULL OF MEDITERRANEAN EASE

Along the Mediterranean, from Italy's sunlit gardens to France's serene wine country, every glass tells a story of ease and warmth. It's a way of living that invites you to pour, share, and savor the simple beauty of the moment.

Gaia stemless wine glasses embody this relaxed elegance. Their grounded form feels natural in the hand, allowing the aromas to open effortlessly while keeping the experience casual and

contemporary. Without a stem, Gaia moves easily between settings: An refreshing juice under citrus trees, a chilled rosé shared at the garden table, or an evening red enjoyed during long conversations that stretch into the night.

Each piece balances clarity with comfort, offering a shape that complements both traditional wines and the modern, fruit-forward blends loved across Mediterranean coasts. Whether paired with Fonte for refreshing pitchers of Italian orange sangria or used on their own, Gaia makes everyday gatherings feel fresh, warm, and quietly refined.

## FULL OF EVERYDAY EASE

Another easy gathering takes shape in scenes like this, where the Misket family blends naturally into real-life hosting. Their simple, balanced forms make even a small table feel ready for company.

**mis550** in the photo shows how versatile the series can be: its coupe shape handles light spritzers, homemade lemonades or small dessert portions with the same ease. **mis590** adds more volume for fruit punches or shared soft drinks, while **mis568**'s rounded bowl works for chilled herbal infusions.

Together, they create a set that adapts without effort, glasses that feel at home in spontaneous moments, quick servings and casual gatherings that don't need planning to feel complete.

LAL  
lal592

### FULL OF SUNLIT MOMENTS

There is a quiet elegance in the way LAL's fine rim glasses turn an ordinary afternoon into a small celebration. A few ice cubes, thin slices of orange, chilled sparkling water and suddenly the table feels brighter and more intentional.

The lal592 wine glass suits these refreshing moments with its delicate rim and tall, balanced silhouette. Build a simple Summer Spritz directly in the glass of tonic, citrus peel, a handful of frozen berries for a natural chill. For a lighter option mix peach nectar with soda and let the *fine rim* highlight every soft aroma.

Pair it with a small board of cheese, marinated olives or tiny pastry bites. The sun touches the table, the glass catches the light and the entire setting feels quietly elevated without any effort. You use what you already have, and the moment gains its own elegance.

## FULL OF HOMEGROWN SPIRIT

Across America, whiskey carries the weight of landscapes: The sharp winters of the North, the humid summers of the South, and the grain fields that stretch farther than the eye can follow.

There's a certain quiet charm to an American evening at home. A worn couch, a game on low volume and a glass waiting for something slow. For many, that "something" is a rye or bourbon rooted in places with their own stories. Think of the peppery ryes coming out of the windswept plains surrounding Templeton, or the warm, rounded bourbons shaped by the limestone-rich soil of Kentucky. Every region leaves its fingerprint.

All LAV's whiskey glasses like Brit settle into this ritual with ease. They're clear enough to reveal the deep amber grain shaped by the limestone-rich waters of Kentucky and the rye fields stretching across the Midwest, solid enough to feel familiar in the hand. You taste the landscape before the spirit even touches your lips. No flash, no fuss. Just an honest vessel for an honest pour; the way American whiskey is meant to be met.

On these game nights, you may match any LAV whiskey glass with Helen or Odin as a small-batch snack service. Smoked almonds, chili-lime popcorn or maple-glazed pecans feel right at home. A simple nod to how American living rooms turn everyday pauses into small celebrations.

## FULL OF CARIBBEAN EASE

**A Caribbean morning in Cuba begins with a familiar ritual: finding something cool enough to steady the day. Before the streets wake fully, vendors crush fresh sugarcane for guarapo, families blend thick batido de mamey, and cafés shake up limonada criolla with wild mint and just-picked limes. These drinks aren't trends; they're everyday anchors in a climate where freshness is a necessity, not a luxury.**

Cuban refreshers deserve a glass that keeps their clarity and color honest. LAV's tumblers naturally settle into this rhythm. Taller, straighter forms like **Elegan (elg379)** and **Zoey (zoe387)** hold stacked lime slices

without crowding, perfect for limonada criolla that tastes best ice-cold. Wider silhouettes such as **Tessa (tes350)** suit guarapo letting crushed ice melt slowly enough to soften its grassy edge. Each design keeps the focus on the ingredients, not the container, echoing the island's unadorned, practical approach to cooling off.

In a place where conversations happen on porches, balconies, and street corners, these glasses follow the flow of daily life with ease. And in those small, sunlit pauses, LAV becomes part of Cuba's most enduring habit: staying refreshed, staying connected, staying present weight that keeps them comfortable in hand.

These are drinks meant to be lingered over, with conversation drifting as easily as the coastal air. In settings like this, LAV becomes part of the island's relaxed, open-handed hospitality.

NEVAKAR  
nev576

## FULL OF QUIET ELEGANCE

**A late afternoon in Puerto Rico leans into its own mellow rhythm. The air thickens with pineapple and coconut, verandas glow in the lowering sun, and everyday life unfolds with an unhurried confidence unique to the island.**

There's a grounded simplicity in the way drinks come together here. Coconut shavings softening into white rum, slices of guava dropped into tall glasses, ice melting just enough to take the edge off the heat. It's an easy, sun-led tempo that turns everyday gatherings into something quietly refreshing. Here, cocktails are a gentle way to cool the day, shared with neighbors and friends who drift in and out as easily as the breeze.

LAV's **Nevakar** rises naturally into this setting, tall enough for layered blends and generous tropical garnishes. **mis550** brings a wider coupe shape ideal for a piña colada spritz finished with a single edible flower. **mis586**, with its crisp martini line, lifts lighter island mixes like a lime-cooled coconut martini or a smooth passion fruit cordial.

All three share the same clarity and balance that make LAV glasses feel immediately at home in warm climates: steady stems, clean lines, and a weight that keeps them comfortable in hand.

These are drinks meant to be lingered over, with conversation drifting as easily as the coastal air. In settings like this, LAV becomes part of the island's relaxed, open handed hospitality.

## FULL OF SCANDI CALM

Amid the stillness of a Swedish winter morning lies a way of living built on balance, clarity and small habits that make the everyday feel intentional. The hush of snowfall against the window, the steady glow of a wood stove and the comfort of holding something warm all belong to a rhythm Sweden has quietly perfected.

This is where *fika* takes its place. Not a break, but a daily pause built around warmth, conversation, and the reassuring feel of a well-chosen mug. And in the evenings, Sweden shifts toward *mys* that intimate, fire-lit ease often confused with *hygge*, but distinctly its own. Here, a hot chocolate,

a spiced tea, or a simple brew gains meaning through the ritual of holding, sharing, and slowing down.

LAV's **Hestia** and **Cozy** step naturally into these rituals. **Hestia**'s lightly ribbed glass brings tactile comfort to the hand, making every warm sip feel steadier and more grounded. **Cozy** carries the calm logic of Nordic design: simple lines, steady balance, and comfort that grows with use. Its **German Design Award 2026** and **Good Design Award 2025** recognition speaks to that clarity. Paired with Hestia, it helps shape the warm, unhurried pauses that make Swedish living feel grounded.

LAV mugs don't compete with the ritual, they let it unfold smoothly. From a morning *fika* to an evening moment of *mys*, they help warmth settle into the day in Swedish way: Softly, thoughtfully, and always with room to breathe.

## FULL OF CELEBRATED DESIGN

Cozy stands as one of LAV's most considered hot-drink collections, where gentle retro cues meet a clean, contemporary sensibility. Its soft curves, smooth edges, and warm tonal palette create a familiar calm, while the ergonomic handle and smart stackability turn everyday use into an easy, intuitive ritual. These qualities have been recognized with both German Design Awards 2026 and Good Design Awards 2025.

As the **German Design Award** jury noted, "*the harmonious blend of retro charm and functional clarity defines Cozy.*" This balance of warmth and purpose gives the product family its quiet confidence and creates a design language that feels expressive yet effortless.

## FULL OF HOMEGROWN SPIRIT

An English kitchen has a way of making even the simplest ritual feel comforting. Morning light softens the blue cupboards, the kettle hums, and a batch of warm scones settles onto the counter beside jam and fresh butter. Nothing is hurried. Everything has a place.

LAV's storage pieces, especially the **Cube** range, slip naturally into this quiet tradition. Their clear glass keeps every layer visible; from

a golden scone crumb to a spoonful of ruby-red jam while the snug lids protect flavors without overpowering the scene. They're practical, but never intrusive; part of the gentle order that defines a British kitchen.

And when the day winds down, these LAVs move with the same ease. Today's blocks of butter rests neatly for tomorrow's tea, and a portion of jam waits in the fridge without losing its texture or charm. It's LAV's way of honoring everyday rituals: simple moments, kept beautifully intact.

## FULL OF SMART PRESENTATION

LAV designs every package and display with the same global mindset that guides our collections. Operating in more than 140 countries, we shape each touchpoint to feel clear, modern, and culturally inclusive—so the brand speaks one consistent language, wherever it appears.

Our packaging and in-store displays follow the same principles as our products: durable materials, practical construction, and aesthetics that travel well from one market to another. Each solution is created to protect, to present, and to communicate the spirit of LAV with confidence.

By unifying design, functionality, and cultural awareness, we build a brand presence that feels trustworthy and harmonious across the world.

Packaging Types

marketing office and a distribution system that connects LAV products to cities, islands and cultural landmarks across the world.

Innovation anchors this reach. At the heart of LAV's operations stands the Technopark facility, a "plant within a plant" dedicated to developing advanced glassware manufacturing technologies. One of only three centers worldwide capable of designing its own production systems, it ensures that every LAV piece carries both technical strength and cultural understanding.

With its global presence, local sensitivity and commitment to thoughtful design, LAV continues to shape modern tables through products that embrace diversity, celebrate daily rituals and bring a sense of unity to homes around the world.

Since 1994, LAV has grown into one of the world's leading glassware manufacturers with a simple conviction: everyday objects gain meaning when they reflect the lives and cultures of the people who use them.

Rooted in Kütahya and reaching more than 140 countries, LAV designs and produces glassware for homes shaped by different traditions, habits and table rituals. From Europe's café culture to Asia's tea ceremonies, from Latin American gatherings to Mediterranean hospitality, LAV's collections are created to feel at home everywhere.

With two production plants covering 300,000 square meters and a daily output of up to two million pieces, LAV ranks as the fifth largest glassware manufacturer in the world. More than 2,000 employees contribute to this global network, supported by an Istanbul-based sales and
