Çağa ve keyifli anlara yatırım...

Teknolojiyi günlerle değil, anlarla yakalamaya çalıştığımız bilgi çağının tanıklarımız. Öte yandan, yaşamın her anından daha çok keyif almak için çalışıyoruz. Yenilikçi yanımızı güçlendiren arayışlarımız, "an"lara değer veren yaklaşımlardan besleniyor; zira geleceği ve hayatı önemsiyor; her ikisine de değer veriyoruz.

Her zaman genç kalan ve yenilikçi LAV markası olarak, kalite sürecimizin verimliliğini arttırmak ve ihtiyaçlara doğru ürün ve hizmetlerle cevap verebilmek için dijitalleşmenin gücüne inanıyoruz. Önceliğimiz olan ve değişmeyecek yenilikçi bakış açımız doğrultusunda, bu defa da manuel üretim sistemleri yerine; robotlarla ilerleyen, anlık takip edilebilen ve sıfır hata ile sonuçlanacak dijital süreçleri tasarlıyoruz.

2015 yılında başlayan "Mükemmellik Yolculuğu" (EFQM) sürecimiz bundan böyle sürdürülebilir bir gelecek ve müşterilerimiz için değer katacak dijital çözümler yaratarak devam edecek. 60 ülkede, 30 farklı sektörde 50 bin model kullanıcı tarafından sürdürülebilir mükemmelliğin itici gücü olma misyonu ile kurulan bu organizasyona dahil olduğumuz ve 2019 yılında beş yıldız ödülüne hak kazandığımız günden bu yana sürdürülebilirliğe verdiğimiz değer artarak çoğalıyor. 2020 yılında fabrikamızda faaliyete geçirmeyi planladığımız yeni nesil ve halihazırda kullandığımız mevcut kalite kontrol makineleri ile hataların tespiti ve tanımlanması otomatik olarak gerçekleşirken, akıllı hata kategorizasyonu sayesinde üretimde mükemmelliğe daha çok yaklaşacağız.

Dijital yatırımlara inovatif bakış açısı ile attığımız bu büyük adımla, temelde yaşamın keyifli anlarına ortak olmayı hedefliyoruz. Bunu da ancak ürünlerimize dokunanlarla, hayatın anlarını paylaşarak yapabileceğimizi biliyoruz.

Bu yüzden basit, yaşamın içinde her gün sıklıkla karşılaşılan ama etkili anlardan yola çıktık. Bu anların tadını çıkarmak üzere; markamızı bilen, bilmek isteyen herkesle, ürünlerimizin kullanıldığı, satıldığı her yerde ve her mecrada daha çok buluşmaya karar verdik.

Amacımıza ulaşmak için kendimizi, hayatın keyfini yaşadığımız anlara özel paylaşımlar yapabileceğimiz doğrultuda geliştirdik. Dünyada İngilizce adıyla "mood" olarak bilinen ruh hali ifadesini markamızla birleştirip adına "LAVMOOD" dedik. Böylece hayatın içinde en iyi bildiğimiz ruh hallerimizi, yani "mod"umuzu anlara göre ifade ettik. Sonuçta, hepimizin anıları, anlarda saklı diye düşündük; ofiste, evde, arabada, plajda, restoranda, dostlarla her yerde nasıl olmak istiyorsa öyle olanların modu bize göre LAVMOOD!

Hayatın değerli anlarını birlikte anılara dönüştürmek dileğiyle...

Invest for the times and joyful moments...

We live in an information age where we don't just playing daily technological catch-up, but rather witness it evolve and develop moment by moment. We are also trying to wring maximum enjoyment from our lives. Our quest to strengthen our innovative side is inspired by these "moments" because we value life and the future.

As an innovative and evergreen brand, LAV believes in the power of digitalization to improve the efficiency of our quality processes and meet customers' needs with suitable products and services. In line with our innovative approach, which is our enduring priority, we are designing trackable, zero-error digital processes with robots instead of manual production systems.

"The EFQM Global Excellence" journey we started in 2015 will continue to produce digital solutions that will foster a sustainable future and create value for our customers. EFQM unites organizations striving for Sustainable Excellence through a network of members in 60 countries and 30 industries and with 50,000 model users. Since we joined this organization, we have become more and more sustainable. As such, we were awarded five stars in 2019. The existing quality control equipment, and the new generation equipment we plan to implement in our facilities in 2020, will enable us to automatically detect and identify errors. Our smart error categorization also furthers us in our fervent quest to perfection.

We have become more powerful so that we can add a special touch to life's joyful moments. We have added "mood" to our brand to create "LAVMOOD." By doing so, we have depicted our "mood" in these moments. In the end, we believe that our memories are hidden in moments. Just be yourself with anyone anywhere — at the office, home, car, beach, or restaurant... LAVMOOD will always match your mood.

Hoping to turn life's precious moments into memories together..

Tea is our second-favorite drink after water...

We savor the last sip before we dash out after breakfast. It is a pleasure, a habit, a need at any time of day while we are on a boat watching seagulls, waiting for a loved one, showing hospitality, working, resting, mending a broken friendship, chatting, traveling, or at home, at work, at school, at rest stops, everywhere...

Sudan sonra en çok tercih edilen içeceğimiz...

Sabah kahvaltısından sonra evden çıkarken bile olsa son yudumunu içtiğimiz, vapurda martıları izlerken, sevdiğimizi beklerken, misafirperverliğimizi gösterirken, seyahat molalarında, çalışırken, dinlenirken, gönül alırken, sohbet ederken, evde, işte, okulda, seyahatte, günün her saatinde, zevkimiz, alışkanlığımız, ihtiyacımız...

Latin for tea is "Camellia Sinensis"

Tea is a species of camellia and thrives in humid climate. It is cultivated in the Eastern Black Sea Region in Turkey – particularly in the Rize province, as this region provides the most suitable conditions for the tea plant. Most commonly preferred black (fully fermented) and green (non-fermented) tea differs in taste, scent and color. Sour, aromatic or strong teas vary depending on where the leaf was on the branch, where the plant grew and how the leaves were processed.

Çayın Latincesi Camellia Sinensis

Çay bir kamelya türü ve nemli iklimleri seviyor. Türkiye'de Doğu Karadeniz Bölgesi'nde ve özellikle Rize'de yetiştiriliyor; zira çay bitkisinin yaşam şartları için en uygun iklim burası. Yaygın olarak siyah (tam fermente) ve yeşil (fermente edilmemiş) haliyle içilen çay, farklı tat, koku ve renk özellikleri gösteriyor. Buruk, aromalı, sert çay özellikleri, çay yaprağının dalındaki yere, bitkinin yetiştiği bölgeye ya da yaprağının işlenişine göre değişiyor.

Câ, or çai, is Chinese for tea

In Chinese it is spelled "çai," in Turkish "çay," in Russian "cháy," in Persian "çây," in Arabic "şay," in Greek "tsa'-i," and in Japanese "cha"; however, they are all pronounced "chai." Western languages adhere closer to the original spelling. In Portuguese it is spelled "chá"; in Romanian "ceai"; and in Czech, Serbian and Croatian it is "cai." Conversely, tea for the British and the Hungarians is simply called "tea," for the French it is "thé," for the Spanish "té," for the Germans and Finnish "tee," for the Dutch "thee," for Danes and Swedes "te," and for the Israeli it's "teh." All these names come from the same botanical root, "thea chinensis," which is Latin for "Chinese plant."

Câ ya da çai, çay anlamına gelen Çince bir sözcük

Dünyadaki bütün dillere de Çince'den geçiyor. Çinliler çai, Türkler çay, Ruslar chây, Persler çây, Araplar şay, Yunanlılar tsa'-i, Japonlar cha olarak yazıyorlar ve çay olarak okuyorlar. Ancak batı dillerinde durum farklı; Portekizliler chã, Rumenler ceai, Çekler, Sırp lar ve Hırvatlar cai yazarak orijinaline sadık kalıyorlar. Oysa çaya İngilizler ve Macarlar tea, Fransızlar thé, İspanyollar té, Almanlar ve Finliler tee, Hollandalılar thee, Danimarkalılar ve İsveçliler te, İsraililer teh diyorlar. Aynı kökten gelen bu isimler de, bitkibilimde Çin bitkisi anlamına gelen Latince "thea chinensis" kavramından türüyor.

Tea as a beverage is an effective antioxidant; it soothes thirst and calms the nerves. It's anti-inflammatory. It increases immunity against blood cancer. It stimulates the metabolism and central nerve system. It improves kidney function. It decreases cholesterol levels. It cleans and renews the liver. It relaxes and enhances concentration. If you use it externally, on the other hand, as a tea bath, stupe or dressing, it relieves various eye and skin problems.

Çay, içildiğinde iyi bir antioksidan; susuzluğu gideriyor, sinirleri yatıştırıyor. İltihaplanmayı önüyor. Kan kanserine karşı bağışıklığı artırıyor. Metabolizmayı ve merkezi sinir sistemini uyarıyor. Böbreklerin daha iyi çalışmasını sağlıyor. Kolesterol seviyesini düşürüyor. Karaciğeri temizleyip yeniliyor. Dinlendirici ve konsantrasyon artırıcı etki yapıyor. Harici olarak kullanıldığında çay banyosu, sıcak kompres ya da pansuman gözdeki, ciltteki kimi rahatsızlıkları gideriyor.

BEST COUPLE

Coconut is a yummy fruit that also provides healthy oil. Its milk goes amazing with beverages and its flakes complement desserts. Decisively though, coconut best complements all-time classic cocoa!

YAKIŞAN İKİLİ

Meyvesi lezzetli, yağı sağlıklı olan hindistancevizi, sütüyle içeceklere, rendelenmiş haliyle tatlılara çok yakışıyor. Hindistancevizinin en çok yakıştığı lezzet ise şüphesiz kakao.

The modern world seeks creative pieces of happiness in a healthy salad for lunch, a delicious secret sauce or a yummy drink that goes beyond clichés, served in jars.

A PIECE OF HAPPINESS

Küçük bir mutluluk

Öğle arasında sağlıklı bir salata, sırrı içinde saklı enfes bir sos ya da lezzetli bir içeceği klişelere hapsetmeyen, kavanozların içinde sunan yaratıcı, küçük mutluluk verici çözümler.

Pastel colors, humble figures, natural textures and strong lines unite to represent minimalism. As everything else in moderation, the harmony of colors, patterns and textures grow bolder like a calm, grounded character who knows what they want.

VEG247
PFK3M0073AC

Pastel tonlar, alçakgönüllü formlar, doğal dokular ve net çizgiler bir araya geliyor, yalınlık tümünün sözcüsü oluyor. Kararında olan her şey gibi, renklerin, desenlerin ve dokuların birbirleriyle olan uyumu sakin, ayakları yere basan, ne istediğini bilen karakter özellikleri gibi belirginleşiyor.

Containing no synthetic ingredients, this charming harmony softly glimmers all shades of green in the natural texture of life. Soothing colors burst to life with bright intricate details, setting an example through eco-friendly and human-centered designs.

İçinde sentetik hiçbir şey bulunmayan, yaşamın doğallığıyla barışık, yeşilin her tonuyla göz yormayan bir uyum ışıl ışıl parlıyor. Dinlendirici renkler, küçük parlak detaylarla canlanırken, çevreye ve insana saygılı tasarımlar örnek olacak kadar başarılı.

Ethnic components are combined with geometric and modern lines to create a vividly colored grand finale. Born from a variety of cultures, this rich and sophisticated perspective cares for ethnic origins around the globe.

Geometrik ve modern çizgilerle buluşan etnik öğeler, canlı renkleri de yanlarına alarak güzel bir final yapıyorlar. Farklı coğrafyalardaki etnik kökenleri önemseyen çok yönlü bakış açısının ilham kaynağı ise kültürlerin zenginliği.

A GLASS FOR EVERYONE

We recommend the "different color glass to each" method as the most effective way to avoid the ever-piling drinking glasses in crowded families as everyone picks up a new glass each time.

HERKESE BİR BARDAK

Kalabalık ailelerde her defasında yenisi kullanıldığı için artan bardak bulaşığına bulunabilecek en efektif çözüm, "herkesin bardağı başka renk" formülü olsa gerek.
