A Vision Full of Life, A Future Full of Hope!

In a world where change is the only constant, resilience and adaptability are no longer just optional—they're essential. Here at LAV, such shifts aren't seen as mere obstacles; they're welcomed as chances to innovate, grow, and inspire. This year, our "LAV Full of Life" campaign embodies this very spirit. It's a message that radiates our passion for infusing joy and energy into every gathering, bringing elegance and vibrancy to tables everywhere. With this campaign, we're celebrating the moments that unite us all, and we're thrilled to introduce new products that make each one a little more memorable.

This year, we're also entering an exciting new chapter with the launch of LAV HORECA, a brand built specifically for the HORECA industry. This expansion allows us to bring LAV's hallmark quality and innovative designs to an entirely new audience. Working closely with industry professionals, LAV HORECA is ready to enhance dining experiences by providing glassware that flawlessly combines aesthetic appeal with the practical requirements of commercial use.

Our journey of transformation continues with the Momentum Project, an initiative that's set to revolutionize our commercial operations. Through this project, we're embracing a modernized approach to business, integrating digital solutions and artificial intelligence to manage processes in a customer-focused, proactive, and fast manner, while refining our operational structure. These strides not only strengthen our foundation but also empower us to deliver even greater value to our stakeholders, fostering growth that's both sustainable and meaningful.

Sustainability remains central to our mission, and our 2024 Sustainability Report highlights some significant

LAV

achievements. This year, we reduced natural gas consumption by 17%, achieved a 2.3% decrease in total energy usage, cut greenhouse gas emissions by 5.9%, and reduced our water consumption by 16.8%. These efforts reflect our dedication to environmental stewardship and regional resilience, aligning with our broader vision to create a positive impact on the communities we touch.

Thanks to the unwavering support of our community, we're able to pursue our passion for crafting glassware that elevates every experience.

Together, let's embrace each day with enthusiasm, savor new adventures, and create lasting memories.

THIS IS US

Our journey with glass began in 1994, driven by a passion for innovation, sustainability, and technology. Since day one, we have been dedicated to delivering excellence to every corner of the world.

At LAV, sustainability is at the core of what we do. By using environmentally friendly materials and adopting water- and energy-saving practices, we have achieved the lowest water and electricity consumption rates in our industry worldwide. This commitment reflects our determination to protect the future of our planet.

With a team of 2,000 dedicated professionals, we bring LAV products to tables in over 140 countries, from the United States to China. As the fifth-largest company in our field, we manufacture 2 million glass items daily across two production facilities spanning 300,000 square meters. Moreover, we are proud to be one of only three companies globally developing its own glass manufacturing technology, with cutting-edge R&D carried out in our Technopark.

LAV is more than a glassware manufacturer. We are a local producer creating value and unforgettable moments around the world. Guided by our principles "act brave, do good, and think unlimited", we continuously strive for excellence.

business partnerships

LAV focuses on the specific demands of each business partner and provides the most appropriate, inventive, and creative solutions to these needs. Through transparent and always open communication channels, we ensure that our business partners are included in all processes. LAV's objective is to help our business partners increase the value of their brands and develop meaningful connections with consumers.

culture

At LAV, we believe that the secret to our success is a healthy work atmosphere that encourages free thinking and innovation while highlighting knowledge, ability, and competence. We endeavor to provide all of the necessary conditions for our employees to grow as professionals and individuals. We dedicate ourselves to empowering and supporting our staff through the recruitment process, in-house training, and reward programs.

innovation

We place high importance on innovative ideas and technological developments at LAV, and with the support of our young personnel, we have positioned innovation at the heart of all divisions. Our R&D section is responsible for the majority of our original efforts, with innovation and technology serving as guiding principles. We are one of only three companies in the world with our Technopark to build our own production technologies in our industry.

PRODUCTION

LAV

LAV, the world's fifth-largest glassware producer, is an internationally recognized brand with state-of-the-art production processes and a commitment to constant innovation. Our two leading mega-factories are capable of putting out 2 million units per day. LAV is a globally recognized and respected brand, as evidenced by our exports to 140 different countries. Our commitment to sustainability is yet another way in which we stand out; we use significantly less water and energy than any other company in the glassware sector. Serve an elderflower spritz in the long drink glass, its sparkling bubbles complementing the vertical lines reminiscent of grand Gothic windows. Pour a chilled hibiscus tea in the tea glass, its vibrant color glowing through the delicate, vertical lines. For whiskey lovers, let the richly patterned whiskey glass highlight the amber hues of a perfectly aged single malt. The Zoey collection invites you to celebrate life's little rituals with a dash of architectural artistry.

cleo - p89

The Cleo collection brings a new sense of refinement to your home, with bowls that are lighter, thinner, and more delicate than ordinary designs. Their featherlight elegance and smooth, luminous surfaces beautifully highlight the colors and textures of whatever they hold, offering a sophisticated yet inviting presence on any table. Available in two versatile sizes, Cleo bowls are perfect for serving silky panna cotta, vibrant fruit salads, or indulgent chocolate mousse. The gentle curves and airy form not only make them a joy to use but also elevate the presentation of every dish. Whether it's a celebratory dinner or a quiet indulgence, Cleo adds a subtle touch of artistry to your everyday moments.

chill - p68

Introducing Chill, the sleek new shot glass that blends minimalism with bold functionality. Whether hosting friends or savoring a moment alone, Chill brings style and ease to every celebration.

wave - p45

Inspired by the calming rhythm of ocean waves and the intricate forms of nature's geometry, the Wave collection brings effortless charm to your home. Its textured, flowing design not only reflects the beauty of the natural world but also feels satisfyingly tactile in your hands, making every use a sensory delight. Serve a rosewater and raspberry old-fashioned in the shorter glass for a romantic twist on whiskey, or create a zesty blood orange and ginger cooler in the taller glass. Perfect for turning everyday drinks into a celebration, the Wave collection transforms natural elegance into timeless artistry.

SERENITY & SPARK: THE PERFECT BALANCE

Bold hues and luminous accents come alive when paired with soft, grounding forms. Sleek glassware, like the Hestia soft drink glasses or the versatile Lal tumblers, adds a subtle sophistication that tempers bold sparkles with elegance. Complementing these, the natural textures of wooden stools or the flowing curves of modern furniture create a sense of harmony and comfort.

FULL OF EXPERIMENT

New to whiskey? Start with what excites you—there's no rule that whiskey belongs to a man cave or a gentlemen's club. Forget the heavy, silent atmosphere; whiskey can be fun, vibrant, and entirely your own.

Pair it with apple or cranberry juice for a smooth introduction, or mix it with ginger ale for a refreshing twist. Love bold flavors? Add a splash of cherry juice to bourbon for a playful kick.

With the right glass, like the **VRA357** for savoring aromas, the **EMP364** for a chilled blend, or the **ARA233** for a sweet bourbon mix, every sip becomes a celebration.

There's no right or wrong way to enjoy whiskey—just your way. LAV glasses make the experience stylish, inviting, and full of possibilities.

FULL OF NUTRIENTS

In the chaos of city life, sticking to a healthy diet is easier than you think. Whether it's enjoying a homemade porridge breakfast in a nearby park, snacking on a fruit salad in the afternoon, or savoring a sandwich on your commute, preparing your meals in advance helps you stay on track.

Keep it simple. Pair one or two wholesome ingredients for quick, nutritious options: Skimmed yogurt with apple slices, strawberries with a handful of nuts, peanut butter and banana, or chopped vegetables with hummus.

Your choice of storage matters as much as your food. Say no to single-use containers and embrace glass: A healthy, durable, and eco-friendly solution. **LAV Fresco** leak-proof containers ensure spill-free transport, while **Cube's** stackable design makes storage a breeze. For a touch of elegance, the **Tokyo** collection, recognized by the *iF Design Award*, *German Design Award* elevates your food presentation, whether it's vibrant salads, or layered granola. With LAV glass containers, meal prep becomes sustainable, stylish, and stress-free, perfect for a life on the move.

FULL OF NATURE

Bring the beauty of the wild into your home with charming wildflowers such as Black-eyed Susans, Wild Lupines, and Indian Paintbrushes. Put fresh blooms in the **FON886** carafe for a rustic yet refined centerpiece, or scatter petals around **SUD** tumblers to accentuate a nature-inspired tablescape. Pair the **FLOWERS3** tea glasses with fresh chamomile or lavender tea for a soothing touch evoking the soft glow of a sunset meadow. These pieces beautifully complement the untamed grace of wildflowers, turning every gathering into a heartfelt celebration of nature.

COLORFUL, EFFECTIVE & SUSTAINABLE

As LAV, we believe that how a product is packaged, advertised, and displayed in stores should all work together to send a consistent message. The importance of packaging and display in overall branding cannot be overstated. So, in order to instill a strong sense of brand appreciation and recognition in our target audience, we created a link between the two that best showcases the benefits of both. Aside from having an outstanding design that immediately captures the attention of our target audience, our packagings and displays are able to travel from one point to another easily and with little to no damage. We apply our award-winning product design approach to displays and packaging. A package or a display is also a LAV product, and each one must be sustainable, durable, modern, unique, target audience oriented, and aesthetically pleasing.
